

Mental Static

GEL

Connecting breeds living true
But cuts open past sores
Act in the moment with pure intent
Left with shame and regret
Try, try, try again
(Push on to the end)
Push on to the end
Uh!

Bleeds into all, a choice to stay blind
Decisions obscured trying to find
Mental static
Trying to find
Mental static
Rather be blind
Mental static
Trying to find
Mental static
Fuck my head I'd rather be blind

Keep your pride while you suffer
Mental static just another
