

Wine N Dine

Gelo

Numb my pain, numb my pain
Can't take her charm away

Watch her numb my pain through these lonely nights
Know they think I'm wrong, but it feels so right (So right, so right)
Leave my thoughts on songs just to ease my mind (My mind)
I know some people fuckin' hate my life (My life, my life)
I still wine and dine, baby, wine and dine
Wine and dine, baby, wine and dine, uh (Wine and dine)
Put in time and I'ma see you shine
Let's see if you my ride-or-die (My die, my die)

They kick me when I'm down, so can you pick me up?
Say I'm a deadbeat daddy who don't give no fucks
Say I'm an ugly soul who just up and run
Talk to me dumb like I don't amount to nothin'
I never really been the type of nigga to reject shit
But I'm on my way, kicked out like two texts, bitch
I can pull a dream bitch by yappin' in a Tech 'fit (Tech 'fit, Tech 'fit)
But every single day, you find a way to disrespect me

Watch her numb my pain through these lonely nights
Know they think I'm wrong, but it feels so right (So right, so right)
Leave my thoughts on songs just to ease my mind (My mind)
I know some people fuckin' hate my life (Yeah)
I still wine and dine, baby, wine and dine
Wine and dine, baby, wine and dine, uh (Wine and dine)
Put in time and I'ma see you shine
Let's see if you my ride-or-die, uh (Ride-or-die)

It's a hole in my heart and you my missin' piece
I knew from the start that you were meant for me
Yeah, she my road dog who let me hold the leash
I can't roll in the dark, I need you to light the streets up
Lay up with you, bitch, I feel like Chris Paul
Step back from you, bitch, I feel like J-Harden
Dunk all in you like Mutombo the all-star
Shaqtin' a fool, I go nuts and I'm on one

Watch her numb my pain through these lonely nights
Know they think I'm wrong, but it feels so right (Feels so right)
Leave my thoughts on songs just to ease my mind (Ease my mind)
I know some people fuckin' hate my life (Yeah)
I still wine and dine, baby, wine and dine
Wine and dine, baby, wine and dine, uh
Put in time and I'ma see you shine (See you shine)
Let's see if you my ride-or-die, uh
