

Absolution

Gemini Syndrome

This is our last chance for absolution

You never know what you've got until you let it go
You never know, you never know
You never have a light if you don't let it show
Or have a life if you don't let it grow

Make no mistake
Your heart's gonna break
When the wind blows cold

This is our last chance for absolution
If this is the end I hope we make it a good one
Time is running
The world is stunning
This is our last chance for absolution

I never saw what was right in front of me
I never saw, I never saw
I never saw what the Gods had given me
I missed the garden for the burning tree

Make no mistake
This world's gonna break
And we need to know

This is our last chance for absolution
If this is the end I hope we make it a good one
Time is running
The world is stunning
This is our last chance for absolution

Just let it go
(Just let it go)
And then you'll know

Don't you know
Everything here is fire
Giving your soul desire
I'd go a thousand miles
I'll be the poster child
Building a funeral pyre
Doing it all with a smile
Make it eternally higher

This is our last chance for absolution
If this is the end, this is the end

This is our last chance for absolution
This is the end, we better make it a good one
Time is running
The world is stunning
This is our last chance for absolution
