3D Romeo

Shape of my heart Piece it together Then pull it back apart Under my skin I'll let your love in

Killer in bed No more redemption You got inside of my head Put down my arms You can do no harm

My 3D Romeo We're gonna play them hard Until they start to fall

One love in digital We're gonna blow it up

Just like the video We're gonna take em down So we can have it all My 3D Romeo

Love you to death I'd jump off the edge And do it with no regrets All that I need You should be with me

You are the one Make me your queen And love me till kingdom come Put down your arms You can do no harm
