

# Graduation

Gemini

Time goes on and on, I told you the moment all day long  
Time goes on and on, you're so strong, so wrong

Time goes on and on, I told you the moment all day long  
Time goes on and on, you're so strong, so wrong

No one, no one here  
Follow, follow fear  
I am, I am here  
Follow, follow fear

So long since I've been standing here  
From the moment I met you it all became so clear  
It's all in the moment, the future is near  
You're so strong, so wrong, time goes on and on

No one, no one here  
Follow, follow fear

No one, no one here  
Follow, follow fear
