

Something In Me, Something In You

Gemini

Tell me what you're thinking of
Now we're lost in the water
Tell me if you feel at all
If you're breathing deeper
Show me what it's all about
All that journeys in the ether
Something we can talk about
If you're breathing deeper

Resurrect the nights we stayed up
With nothing more than chaos on our minds
Promise me you'll find your way out
There's something in me, there's something in you

Resurrect the nights we stayed up
With nothing more than chaos on our minds
Promise me you'll find your way out
There's something in me, there's something in you

Tell me, you tell me
Tell me, you tell me
Tell me, you tell me
Tell me, you tell me

Which way does the river flow?
I think we're lost in the ocean
It's not something we can talk about
So, I'll breathe in deeper
I watch your eyes turn so cold
I got us caught in the fire
It's not something we can talk about,
So I'll breathe in deeper

Resurrect the nights we stayed up
With nothing more than chaos on our minds
Promise me you'll find your way out
There's something in me, there's something in you

Resurrect the nights we stayed up
With nothing more than chaos on our minds
Promise me you'll find your way out
There's something in me, there's something in you

Tell me, you tell me
Tell me, you tell me
Tell me, you tell me
Tell me, you tell me

Feel your love, take its hold
And I can't seem to let it go
I'm falling away from you
I'm falling away

Resurrect the nights we stayed up
With nothing more than chaos on our minds
Promise me you'll find your way out
There's something in me, there's something in you

Tell me, you tell me
Tell me, you tell me
Tell me, you tell me
Tell me, you tell me

Resurrect the nights we stayed up
With nothing more than chaos on our minds
Promise me you'll find your way out
There's something in me, there's something in you
