

Telana

Gemini

You're funny when you're mad
You hurt me when you're sad
I'm feeling all alone
You got me so far gone
You break me when I'm down
But you got me figured out
I'm lost inside my mind
Cause you got me wasting time

And I got caught up
But you called up you sayin' you miss me
And I got all dolled up
And when we hung you wouldn't even kiss me

[Pre-Chorus]

Used to be your condo. Laid up
Just me and you
Have a midnight convo. Blazed up
Doin' what we do
Now you seem like a stranger
You changed up..
Don't know you..
Thought we would be major
I'm lost now
I've got no clue

[Chorus]

You're just a Gemini love
You're just a Gemini love
Yeah yeaah
Thought there could be an "us"
But you keep switching off
Yeah yeaah oh

[Verse 2]

Never said "I loved you"
But you said it all the time
Then again, I fell for you
And you put me back in line
I never meant to, put you in your place
Just think it's time
You took it all away

[Pre-Chorus]

[Chorus]

[Outro]

I guess that oh just kinda been confused like...it's like it just keeps going on. All of this over and over again and I never know what to think
