Time keeps tickin'
Tick tock's slippin'
Lookin' at my watch and how them diamonds do glisten
'Specially in the sunlight with my arms out the window
With the top down, givin' all these bitches a visual
Pedal to the metal
I'm gone, gotta go
Time waits for no one, on that note, see me flow
I'm glancin' at my rear view
Seein' what I went through
Road blocks, detours, that made hella bitch moves
As no one understands, I don't care, as long as I do
You ain't gotta feel me, but feel this
Fuck you
I ain't here to please you, I'm here to fill my pockets
And make sure that this fuckin' bank account sky rockets

"Time to-time to stack a million"
"Monies-monies to the ceilin'"
"Grind hard
Hustle harder, you know what the deal is, deal is"
