

## Angel rays

Gemma Hayes

The time we lost, you've held your cross  
No tears did your eyes tell  
The time you lost, no matter what the cost  
Your strength it saw you through

But time will heal what your heart conceals  
And this I know too well  
The road you've known that takes you home  
Is waiting strong and true  
For this child of mine  
She'll forever shine  
Angel Rays watch over you

But time will heal what your heart conceals  
And this I know too well  
The road you've known that takes you home  
Is waiting strong and true  
For this child of mine  
She'll forever shine  
Angel Rays watch over you

For this child of mine  
She'll forever shine  
Angel Rays watch over you

Angel Rays  
Angel Rays  
Angels Rays

Angels Rays  
Watch over you  
Angel Rays
