

# Happy Sad

Gemma Hayes

My dirty joy, my laden back  
My will to live is under attack  
I have the days when it comes easy  
My blue eyed boy got show and tell  
I need your laugh to make me well  
No light is coming through my window

Gotta meet you face to face  
Convince you that I'm not so strange  
Just happy sad  
I'm broken down  
But I'm okay, upbeat when you come around  
I'm happy sad and it comes easy to me  
I'm never one or the other

You have knocked me off my track  
One lap to go and now I'm last  
You know I used to be so eager  
Get up, get up, get out of bed  
The brightest day that ever led  
You know you make me want to try harder

[Chorus]

My friends are few, but that's okay  
'cause when you're around it all just fades away  
My sadder boy

I'm happy sad  
I'm broken down  
But I'm upbeat when you come around  
I'm happy sad  
And it comes easy to me  
I'm never one or the other

The roads don't love you, they still don't pretend to  
The roads don't love you, they still don't pretend to
