

# Summers in Doubt

Gemma Hayes

Summers in Doubt, that's where we are  
So I go to your house, that's where I feel strong

We're gonna make it anyway, it's just a given

And while from the daylight, that's where we are  
We've given up on the quiet fight, so scared this noise is shaping us

Gonna make it anyway, it's just a given

Just fade out, of the way  
Watch you fade out, of the way

Summer's in doubt, that's where we are  
So I go to your house, that's where I feel strong

Gonna make it anyway, it's just a given  
Gonna make it anyway, it's just a given  
Gonna make it anyway, it's just a given

The light, follows you forever  
The light, follows you forever (and I worked myself into a calm )  
The light, follows you forever (and I worked myself into a calm )
