

Bye Bye Cherry

Gene Autry

Take off all your underwear
I don't care I'll go bare
Bye bye boyfriend

You taught me how to dance and sing
Also how to shake that thing
Bye bye boyfriend

You took me to your cottage in the wildwood
There you took advantage of my childhood
You put your hand beneath my dress
There you found a blackbird's nest
Bye bye boyfriend

With your arse against the wall
Should I come, boys and all
Bye bye cherry

I ain't got a hell of a lot
But what I've got will tickle your twat
Bye bye cherry

Throw your legs around me little honey
This thing of mine is feeling funny
Shake your ass and wiggle your tits
Till your little snapper flips
Bye bye cherry
