

Come Naturally

Gene Loves Jezebel

It only took a word
From the man at the top
You've got to learn to love yourself
Before you watch them drop
Watch them drop

You're trying to be faithful
To your one and only cause
You made it look so easy
There';s only one clause
One clause

Come naturally
Come naturally
Come naturally
And you live like its your house
Yes you live like its your house
Yes you give its like your house
How you live, its like...

I saw blood on the curtains

Roses 'round your door
My love ?___? lies weeping
On your kitchen floor

Come naturally
I'm in love with an artist
I driving in a car
Gliding so easily
Dark, Darkstar
Come naturally
Come naturally
Come naturally
And you live like its your house
Yes, you live like its your house
Yes, you give its like your house
How you live - so naturally

Come naturally
Come naturally
Come naturally
(repeat to end)
