

# I Need A Woman's Love

Gene Vincent

Lord, you know I'm a crazy whisper fever there slays plan of many mice  
Satisfaction don't come easy three times single married twice  
Woman's love is all I need

I once to tell you young girl but I make a cry I can  
I got some foggy good lovin' that's the soul's love his man  
I can't sing and play happy stop and raise here about

What I cannot speak  
I'm sorry girl for flash you, you got all what I need  
Come on and live love like happy and the world stay insane

Hey, I keep you deliver makes me launch something bad  
Still and give up happy Lord my brain is feeling glad  
I'm gonna start counting fingers and my blood stays from my hands

Hey, hey, hey, I need a woman's love  
Hey, hey, hey, I need a woman's love
