

It's Been Nice

Gene Vincent

Well, I took you out to dinner
And took you to a show
Had a pocket full of money
Spent all my dough

Now I see that look in your eye
You're about to say bye-bye
I don't wanna hear you say
It's been nice, a-goodnight

I gotta get up early-early in the morning
Though it's out first date
You know I really had a ball
Just my kinda chick, not too short not too tall

How can you treat me this way
When you know I wanna stay
I don't wanna hear you say
It's been nice, a goodnight

I gotta get up early early in the morning
Don't try to shake my hand
Don't try to fluff me off
If I bend over to steal a kiss
Well, don't make like you gotta cough

I don't wanna call you next Thursday night
And I don't wanna join a line-up formed on the night
Well, I'm so ready and wild
Let's kiss and could right now
I don't wanna hear you say
It's been nice, a goodnight
I gotta get up early early in the morning
