

# Sunshine

Gene Vincent

Sunshine, you may find my window but you won't find me  
And sunshine, I've got my friend of darkness here to hide me  
Sunshine, as far as I'm concerned I'm where I want to be don't  
you see

Sunshine, as far as I'm concerned don't be concerned with me

She doesn't love me anymore she doesn't love me  
Baby don't need me anymore I've grown tired of chasing rainbows  
I loved her true God only knows I tried guess she was right I'm  
at my end  
I found my part but there's no golden sky

So sunshine, you see I'm not alone don't bother me  
Sunshine, pick up your dawn and move on down the street  
You see sunshine as far as I'm concerned I'm where I want to be  
Sunshine, as far as you're concerned don't be concerned with me  
Say, oh-o-o please sunshine let the darkness creep on me  
Say, oh-o-o sunshine please let the darkness creep on me
