Because You Believed In Me

Gene Watson

It seemed like forever before I could gather
This bouquet of words just for you
To tell you how thankful I am for your love
And for all the dreams that came true
When I was fallin' you stood by me, darlin'
Your love lifted me to my feet
The world became smaller and I became taller
Because you believed in me
I stepped over mountains that no man had climbed
Wide rivers were easy to cross
I found everything right here in your arms
Everything I thought I had lost
Your love is the key that unlocked the door
That led me to impossible dreams
It was easy to capture the dreams I ran after
Because you believed in me
Because you believed in me
