

# Independence Day

Gene Watson

You've always told me that I couldn't make it without you  
You had me believing it was true  
But I've been feeling stronger about making my own way  
And I think it's finally Independence Day

It's Independence Day, I'm celebrating  
It's not the fourth of July, but I'm not waiting  
There's sure to be some fireworks over what I have to say  
I'm leaving you, it's Independence Day

I'm taking off my wedding band to let my freedom ring  
I've been like a puppet on a string  
And it ain't getting any better so don't beg me to stay  
I've made up my mind, it's Independence Day

It's Independence Day, I'm celebrating  
It's not the fourth of July, but I'm not waiting  
There's sure to be some fireworks over what I have to say  
I'm leaving you, it's Independence Day  
There's sure to be some fireworks over what I have to say  
I'm leaving you, it's Independence Day
