

Just In Case

Gene Watson

Well, I saw the lights go down with his car still in the drive
So I hung around to watch but he never said goodbye
She don't know how I really feel, I can't seem to find the words to say
But I thought that I'd drop by, just in case

As I slowly pulled away, I turned on the radio
And the song that was playing, man, it really hit home
But if home is where the heart is, we don't live in the same place
So I'll just wait here by the phone, just in case

I don't want to miss her call, she might want to call and talk again
And it might be wishful thinking, but she might be more than just a friend
Oh, I might not even get the chance, but that's the chance I'll have to take
So I'm not going anywhere, just in case

Oh, I might not even get the chance, but that's the chance I'll have to take
So I'm not going anywhere, just in case
No, I'm not going anywhere, just in case
