

Let Me Be The First To Go

Gene Watson

Lord, I've never asked for any favors
And I'm not too deserving, as I know
But when it's parting time for me and baby
Please let me be the first to go

Don't take the heart out of our family
Me and the kids would miss her so
I don't think I could live one day without her
So let me be the first to go

This happy home we share is her creation
It's warm and cheerful from her happy glow
She has so much more love to give than I do
So let me be the first to go

Don't take the heart out of our family
Me and the kids would miss her so
I don't think I could live one day without her
So let me be the first to go
Please let me be the first to go
