

# No Goodbyes

Gene Watson

Come and sit down here beside me, let me see that smile  
I was just reliving some good times  
Do you remember that first date, when you said you'd be mine  
And we promised there'd be no goodbyes?  
Chorus: And together we'd soar over the mountains of life  
Some good times and some sad times, we took it all in stride  
With you there beside me, Lord I loved every mile  
And there's no reason for any goodbyes

You know time moves so swiftly, in the wink of an eye  
A lifetime could just pass you on by  
But love like ours goes on forever, and beyond the end of time  
So there's no reason for any goodbyes  
Chorus: And together we'd soar over the mountains of life  
Some good times and some sad times, we took it all in stride  
With you there beside me, Lord I loved every mile  
And there's no reason for any goodbyes  
With you there beside me, Lord I loved every mile  
And there's no reason for any goodbyes
