

# Shine From The Mountain

Gene Watson

My desire is to speak like as those all around me are dying  
My desire is to speak peace at a time when the tempest is tossing  
I desire most of all to shine in a world filled with darkness  
So if you'll shine through me Lord, together we'll light up the world

So shine from the mountains, search all the valleys and hills  
Shine on the waters, rescue the dying, say live  
Oh, sound out the warning 'Jesus is coming again'  
And the light of His Glorious image is filling the land

Oh I feel so unworthy, I have no strength of myself, Lord  
But you said to the weak, say I'm strong, Lord and you are my soul  
As the mountains of gloom and despair loom ahead, I will charge them  
In the sweet name of Jesus, the mountains will move as Thy voice

So shine from the mountains, search all the valleys and hills  
Shine on the waters, rescue the dying, say live  
Oh, sound out the warning 'Jesus is coming again'  
And the light of His Glorious image is filling the land

And the light of His Glorious image is filling the land
