

# You're Just Another Beer Drinkin' Song

Gene Watson

You're just another something I did wrong  
You're just another beer drinkin' song  
Don't think that your the first time I've been walked out on  
And your not the first time that I sang the blues  
I'll just find somebody else to drink along  
And I'll drink these next few beers to you

You're just another beer drinkin' song  
You're just another somebody gone  
You're just another something I did wrong  
You're just another beer drinkin' song

You're not the first time that I didn't settle down  
And you're not the last time I'd bet it's true  
And just for old times sake I'm buyin' one more round  
And we'll all drink one more toast to you

You're just another beer drinkin' song  
You're just another somebody gone  
You're just another something I did wrong  
You're just another beer drinkin' song  
You're just another beer drinkin' song  
You're just another somebody gone  
You're just another something I did wrong  
You're just another beer drinkin' song

You're just another beer drinkin' song  
You're just another somebody gone  
You're just another something I did wrong  
You're just another beer drinkin' song
