

Is It Over

Gene

Do you want another lover
Do you tire of me?
Have you had a better offer
Something wild and free?

I hope to god your sure
You want this other more
Than you once wanted me

I have been to see the doctor
He agrees with me
There is nothing that can stop you
But I can't dream

Half buried in a world
Where I love everyone
And everyone loves me

It's not normal but it's mine
And i'll leave in my own time
The one thing you can't steal

Is it over, over
Is this the end of me?
Is it over, over
Dispensable and cheap?
Is it over , over
Is this the end of me?

I have friends that owe me favours
They look out for me
They love me like a brother (only)

If your memorys so strong
How come you got it wrong
On what you promised me
Can you now ignore
How you felt with every pore?
Tell me that wasn't real

Is it over, over
Is this the end of me?
Is it over, over
Dispensable and cheap?
Is it over, over
Is this the end of me?
Is it over, over
I still want you

If I want another lover
I'll get one easily
I still have much to offer
