

## Let Me Rest

Gene

When I go sleep tonight  
It's the last time I'll close my eyes  
When I go sleep tonight  
Just hold me tight  
Stay by my side  
Is there something in me?  
Inevitability?  
I never wanted to be unhappy  
Remember me just how you want to  
Get me...  
Float me away  
I will not take another day.  
To those I leave behind  
Move on my friends don't reason why.  
To those I leave behind  
I'll always be right by your side  
Remember me just how you want to  
Get me...  
Float me away  
I will not take another day.  
Just let me rest  
Despite all the love you I showed you  
Must be a voodoo curse on my name  
I don't deserve this kind of pain.  
When I go sleep tonight  
It's the last time I'll close my eyes  
To those I leave behind  
Move on my friends don't reason why  
Is there something in me?  
Inevitability?  
I never wanted to be unhappy.  
Remember me just how you want to  
Get me...  
Float me away  
I will not take another day.  
Just let me rest
