

Scalpel Infestation

General Surgery

Revel in the impending sense
of epidermal punctuation

A myriad of sharpened tools
A collection of depravation

Plug the pores with scalpel tips
Ease the tension with witty quips

Cover every inch
of the mangled epidermis

Cadaveric pin cushions
Spiked, drained and bled

Skewered from every direction
A psychotic subjugation

Frolicking slashing and piercing
More and more of the innards revealing

A myriad of sharpened tools
A collection of depravation

Plug the pores with scalpel tips
Punching holes with home-made shivs

Cadaveric pin cushions
Spiked, drained and bled
