

Cathy Come Home

Generation X

Up by the junction as the lights turn green
As Cathy comes home through the rain
Up by the junction as the lights turn green
I heard a voice say "this is the one"
And I knew that we would meet
That our paths would cross
Alright
As Cathy comes home
As Cathy comes home
As Cathy comes home
As Cathy comes home
And she comes home alone
Every night at six
She walks the road
And every night
I wait alone
Every night
She walks the road
But I'll never ever say hello
But one day soon you'll see
Because I know that we will meet
Some night
As Cathy comes home
As Cathy comes home
As Cathy comes home
As Cathy comes home
And she comes home alone
I want her always
Yeah
Here she comes
Walking down the street
And everyone she meets
Here she comes
Walking down the street
And everyone she meets
Says she looks so fine
Here she comes
Walking down the street
And everyone she meets
Uh
Here she comes
Walking down the street
And everyone she meets
Says she looks so
As Cathy comes home
As Cathy comes home
As Cathy comes home
As Cathy comes home
As Cathy comes home
As Cathy comes home
As Cathy comes home
As Cathy comes home
As Cathy comes home
