

# A List of the Virtues

## Generational

I saw some people we know  
They told me you're working on a list of all the virtues  
They told me you're walking from Arizona to Kentucky  
Is that true? (A list of all the virtues)  
I want somewhere else to go  
I want a place with a better vision of the future  
I'm living in a place where they lock up eight of every thousand  
That is true (A vision of the future)

And I said ah...  
The bigger the better, remember  
Hold me close and try and keep it together  
And I can feel the fear come and pull us into the waves  
Here we go  
(A list of all the virtues)  
(A list of all the virtues)  
(A list of all the virtues)  
(A list of all the virtues)

Over the news of the day  
Take a look into the root of division  
Bring it all back and tell me something  
I already know (The root of the division)  
Here we are fighting the fight  
Getting by without a vision of the future  
Putting one foot in front of the other  
Here we go (A vision of my future)

And I said ah...  
The bigger the better, remember  
Hold me close and try and keep it together  
And I can feel the fear come and pull us into the waves  
Here we go  
(A list of all the virtues)
