

I could sleep for days  
I don't miss the sun  
I don't need to know  
If that's the worst of it (That's not the worst of it)  
It's not that you can't get in good  
If I don't pick up the phone  
It's just that it won't get better 'til you leave me alone  
I can't feel a thing  
I don't think I want to  
Is it worth the wait?  
Is that the price you pay? (That's not the worst of it)  
It's not that you can't get in good  
If you don't do it on your own  
It's just that it won't get better 'til you leave me alone  
I know sometimes you gotta live in the dark  
We can't stand each other but we can't be apart  
I don't think I really want to live on my own  
But I know that it won't get better 'til you leave me alone  
I don't want to see you  
You take me to that hole in the ground  
Ruin all those songs for me  
And is that the worst of it? (That's not the worst if it)  
It's not that you can't get in good  
If I don't pick up the phone  
It's just that it won't get better 'til you leave me alone  
I know sometimes you gotta live in the dark  
We can't stand each other but we can't be apart  
I don't think I'm gonna make it out on my own  
But it won't get better 'til you leave me alone
