

## I Never Know

### Generational

I bet it don't upset you to see me get busted  
But I been listening to people that I trusted  
And I don't know  
I could believe you or leave you I don't know

Who says it ever is about what came before you  
You get obsessed with it and I get to ignore you  
But I don't know  
What have I learned to turn to? I don't know

Hold tight out tonight if I go home without you  
Then you can listen to what people say about you  
I don't know  
But I forget to let you I don't know

I don't know  
But I forget to let you I don't know
