

## I've Been Wrong Before

Generational

I was around when the bridge got burned  
I take a lesson but I never learn  
And I walk my way  
And I don't look back

And they say it's not that bad man  
But I think I'm running out of ways to believe that

So I took apart my television  
I'd come to think I need a bigger one  
When I look back now  
Had we lost our heads  
You could tell I'm slipping backwards  
By the way I could not understand what the man said

You were never there  
When I was a beaten broken person  
Knocking at your door  
I took you for a better friend  
But I've been wrong before

I recommend what the old man said  
You gotta do it if you wanna get ahead  
But if you wanna get a heart you got to give yours to me  
I think I'm slipping backwards  
So you can't tell me to be there if you won't be

You were never there  
When I was a beaten broken person  
Knocking at your door  
I took you for a better friend  
But I've been wrong  
No, I've been wrong before
