

It May Get Bad When You're Lonely and Cold

Generational

It may get bad when you're lonely and cold
But say it to me anyway
When you're lonely and cold
Tattooed to my memory
When you're lonely and cold
Say it to me anyway
When you're lonely and cold
Tattooed to me

Yesterday I'm falling in love
Like water to my throat
Now I see it written in blood
My heart would never let my head go

It may get bad when you're lonely and cold
But say it to me anyway
When you're lonely and cold
Tattooed to me

After we're dead and gone
They'll forget about the life we know
The time we wasted on
The hesitation and the ego
Say you want some devotion
Listen with attention
You want adoration

(Like water to my bones
My heart will never let my head go)

It may get bad when you're lonely and cold
But say it to me anyway
When you're lonely and cold
Tattooed to my memory

When you're lonely and cold
Say it to me anyway
When you're lonely and cold
Tattooed to my memory

When you're lonely and cold
Say it to me anyway
When you're lonely and cold
Tattooed to me
