Please Be It

Generationals

I saw you waiting around
Is that the worst you could do?
Then why am I waiting round for you?

This isn't what you would think
If they don't get to you first
It's not so bad as it seems, it's so much worse

That's not what they say when you're around
You got it right when you said they're so far down

I heard you calling my name
I won't admit that you're right
Is it something you tell yourself at night?

I feel like it's getting old
And they'll be passing us by
What's the worst we could do but start to try?

That's not what they say when you're around
You got it right when you said they're so far down
