

# Drown

Genesis Owusu

One, two, three four!

I fix the mask in place  
The face of a heathen  
I'm joined by stitch  
That's the me that you missed  
The feeling of the morning  
Now that the night is through  
I'm feeling kinda blue  
Reading through the letters  
Befriending all the beggars who would die for you

I took a date with a g 'round the city  
God damn, they a bad little kitty  
Rob my heart in a manner of a crime spree  
Black fur with a face just like me  
My other half that I swore I ain't miss  
Toxic, hundred percent batshit  
Took my hand and started holding me down  
Flicked the crown, and said

You've got to let me drown  
You've got to let me drown  
You've got to let me-

I can't leave till you get it  
I can't- (Baby wake up, wake up, wake up, wake up)  
I can't leave till you get it  
I can't- (Baby wake up, wake up, wake up, wake up)  
I can't leave till you get it  
I can't- (Baby wake up, wake up, wake up, wake up)  
I can't leave till you get it  
(Baby wake up, wake up, wake up, wake up)  
I can't leave till you get it

One, two, three, four!

Everybody's laughing  
And the jokes on you  
All the people that you kissed  
It's the me that you missed  
When you're mad for the moment  
But your footsteps even  
Just the leaves that you're raking  
Now that summer is through

I look back at the me that I disguised  
Rock dropped in the sin, I was baptized  
With a devilish grin, I could see the more  
It was time for the stage or the curtain call  
Chicka chicka, chicka chicka, chicka chicka, yeah  
Party's over twin brother, I'm the winner here  
Reached out, took my hand started, started holding down  
And then I said

You've got to let me drown

I can't leave till you get it  
I can't- (Baby wake up, wake up, wake up, wake up)  
I can't leave till you get it  
I can't- (Baby wake up, wake up, wake up, wake up)  
I can't leave till you get it  
I can't- (Baby wake up, wake up, wake up, wake up)  
I can't leave till you get it  
I can't leave till you get it

You've got to let me drown  
You've got to let me drown  
You've got to let me-
