

Void

Genesis Owusu

Trapped in a void
I've been flicking my wrist for the writtens that bonded my soul to the earth
And the spite ain't a problem, you best change your face, 'fore my niggas come through, put your soul in the dirt
My home in a hearse
The bulb in my mental been cut because of the bills I have not paid
But the paper been raining
My niggas got booked, and they yellin' "please Gena, start flipping the page"
The kamikaze grippin'
Self absorbment shippin'
Chicken dipper, with my feet on the curb
The breathin', thievin', bumpin'
Seethin' season thumper
Steezin' heathen, without leaving the church
The rotten tooth decayer
Safest method slayer
Player boy, but it's breaking my heart
The human contradiction
Paradoxial diction
Ain't the boy that has been here from the start
I've been told to come through with a motherfuckin' chopper
But I'm out here getting pencils from my motherfuckin' locker, boy
Ain't myself but ain't no knock off, boy
My train of thought shifted, now hop off, boy
Been starin' at glass but the mirror been showin' a stranger instead of my noggin, boy

Trapped in a void, trapped in a void
Young boy been trapped in a void
Trapped in a void, trapped in a void
Young boy been trapped in a void
Trapped in a void, trapped in a void
Young boy been trapped in a void
Trapped in a void, trapped in a void
Young boy been trapped in a void

Please spare my soul
Oh, please spare my soul

I've been spillin' my heart but they yellin' (turn up)
Your consciousness shit is not sellin' (turn up)
They don't give a fuck what you're tellin' (turn up)
Just yell and pretend you're a felon (turn up)
Identity been shiftin'
Eyelids ain't been drippin'
Alcoholic sippin', throat been (burnt up)
Your misconceptions branding evil blessings on my image
Denting mental's message (sermon)

Trapped in a void, trapped in a void
Young boy been trapped in a void
Trapped in a void, trapped in a void
Young boy been trapped in a void
Trapped in a void, trapped in a void
Young boy been trapped in a void

Trapped in a void, trapped in a void
Young boy been trapped in a void

Please spare my soul
Oh, please spare my soul
Oh, it's so cold in these chains
Oh, it's so cold in these chains of gold
