

So what you tryna do? Yeah
Tag by my side, we sliding through, yeah
'Bout time you slide in with my crew, yeah
Not me without you

Let me talk about us though, us though
Ain't got time for my hustle, hustle
But I really think you must know, must know
I think you're great, you saved my day
If you ain't with the couple, couple
I'll be gone with the gusto, gusto
See, it really ain't a puzzle, puzzle
I say, he say, she say

So what you tryna do? Yeah
Not me without you
So what you tryna do?
Not me without you
So what you tryna do? Yeah

No time for home, we gotta groove
Me and my brothers on the move
Not me without you
So what you tryna do?

Said you the light inside the grey (Grey)
You the peace inside my day (Day)
You the rose in my bouquet, presents in my sleigh
Bring the love this way
Keep me loving what you do (Do)
Think you peanut butter smooth (Smooth)
You so bad, you so taboo, never make me blue
Be my baby boo

So what you tryna do? Yeah
Not me without you
So what you tryna do?
Not me without you
So what you tryna do? Yeah
