

Nowhere Else To Turn

Genesis

Would it be asking too much of you?
To let me stay tonight
Until I find my way back home again
Life's been so simple lately
I don't want it to go away
There is precious little left for me to say

I've got nowhere else to turn
Will you help me tonight?
There's no one to stand in our way
I just want to feel needed
Won't you give me a chance?
I know that you want me to stay

And there's no need to be disguising all your feelings
'Cause I can't leave you alone
I've got nowhere else to turn

Would it be taking a liberty?
In loving you tonight
I just want to hold you close again
I get so lonely sometimes
Then I think of you
There is precious little else that I can do

I've got nowhere else to turn
Will you help me tonight?
There's no one to stand in our way
I just want to feel needed
Won't you give me a chance?
I know that you want me to stay

And there's no need to be disguising all your feelings
'Cause I can't leave you alone
I've got nowhere else to turn

Would it be taking a liberty?
In loving you tonight
I just want to hold you close again
I get so lonely sometimes
Then I think of you
There is precious little else that I can do

I've got nowhere else to turn
Will you help me tonight?
There's no one to stand in our way
I just want to feel needed
Won't you give me a chance?
I know that you want me to stay

And there's no need to be disguising all your feelings
'Cause I can't leave you alone
I've got nowhere else to turn
