

Sea Bee

Genesis

Hey sea bee
Fly through the waters of sadness
That part you away from me

Hey sea bee
You'll freeze in the wind
That gently is blowing you away from me

Fly to me quickly
Suffing your gold wings
I'll find you comfort
You know you're gonna fall down
Down, down
'till you end up on the ground
You have no fun
You're on your own

When you're flying out in the sky
Can you cast your eyes below

Hey sea bee
Rain drops are falling
In the shadows where you are so close to me

Hey sea bee
The beauty I saw has been drenched
From the sea where my sorrow lies

Swim home to me now
You can just make it

I know you like it
You know you're gonna fall down
Down, down
'till you end up on the ground
You're sleeping now
You're on your own

Drifting higher in the sky
Disappearing from my sight

Hey sea bee
Once in a while
When you think of a friend
That you have left behind

Hey sea bee
I can't forget you
Or the warmth that surrounded your gentle heart
