Genesis

C Em Am
Slowly I stretch out my arms, freely
C Em Am
Shadows of night disappear
Dm Em G
Rise from the slough of despond find the pathway
Dm Em G
Guiding us forward through pastures of dream day
Dm Em G
Days to enjoy, peace I knew once before me
Dm Em G
Dawning to dusk on the hills until morning
F Em G
Come see me take my hand
F Em G
Come see me in my land

Flying invisibly high, watch me
All on a beautiful sky, I'll be
Clear and serene in the love I've discovered
Long search is over, the soul is uncovered
Resting on joy that abounds without ceasing
Bidding farewell to the fears now decreasing
Come see me take my hand
Come see me in my land

Em A D
High on a golden crested wave she sits
Em A D
The little nymphs dance in her hair
Em A D
The trees all beckon to the sky to bless their empty lives
Em A D
Horizons come to sip wine there
Em A D
The veiled mist reveals the wandering ship upon the reef
Em A D
The albatross flies to the stern
Em A Em D
But only Jack Frost saw the kiss you gave him in return

C Em Am
Crossing the mountains of truth see them
C Em Am
Soaring majestically high and then
F Em Am
Stop at the warning light, see it flash brightly
F Em Am
Thunder awakes me, the crashes beside me
F Em Am
Shatters the scene and bring chaos to beauty
F Em Am
Leading us forward where destiny may be
F Em G
Come see me take my hand
F Em G
Come see me in my land
