

# Carrion

Gengahr

Talk to me, I'll make you laugh  
I've never known how or when I should ask  
Told the line, we'll all be fine  
Just waiting up next to all of our thoughts

Lie to me, show me where  
Maybe all bombs fly on our way  
Shed some light, know you're right  
Baby it'll all work out in the end  
Tax to fine, rob you blind  
Summon a [?]

I can see it coming, feels like I always will  
Carrion outside, waiting for you  
Pretty sure I'm sinking  
But for a while I feel  
Carrion outside, waiting for you

I can see it coming, feels like I always will  
Carrion outside, waiting for you

Tipping forces greet us down  
So when the sky falls out of throne  
But be my eyes to carry us  
Burning down the start again

It feels like we're the only ones

I can see it coming, feels like I always will  
Carrion outside, waiting for you  
Pretty sure I'm sinking  
But for a while I feel  
Carrion outside, waiting for you

I can see it coming, feels like I always will  
Carrion outside, waiting for you

Burning bright, like amber light  
Just know the good fur grows darker than you  
Carry on, but nothing more  
We're all on a trip I've never pursued  
Need to find what is mine, and I'll be out wondering what we go  
t through
