Gengahr

Far too long
Give it some time
How would you know?
Ask yourself
If there's no hell
Why does it hurt?
Here they come
Hesitations
Heavy in hope

Life
You're gonna sway along

Collapse into me
We're coming up light
Still remembering

Foundations
In a day room
Bitter in doom
Cast in love
At the station
I should have known
Life through lungs
Medication
Out of control

Life

Collapse into me
We're coming up light
Still remembering
Collapse into me
We're coming up light
Still remembering

Midday sun
Hot as they come
Bring me the coast
When we fall
Just an echo
Afraid to be heard

Life
You're gonna sway along

Collapse into me
We're coming up light
Still remembering
Collapse into me
We're coming up light
Still remembering
