

## Dizzy Ghosts

Gengahr

Curse all I know about being idle  
When I think of what I've done  
Sure enough I won't be waiting out, speaking low

Darling it started out meaning nothing  
Darling it started out meaning nothing

Can't speak alone now  
Who decided where the road should lead to now  
Sure enough inside a room you laid aside to rip me off  
Part of nothing  
You don't notice all the lies and I want some  
Feeling thirsty because the drinks you made were nothing

Darling it started out meaning nothing  
Darling it started out meaning nothing

Darling it started out meaning nothing  
Darling it started out meaning nothing

Hard enough to know that I should be there  
With a flash or with a bang  
Cut the eyes out all the pictures  
That you left me by the side  
Walking over, shiny colours, call me supernatural

Darling it started out meaning nothing  
Darling it started out meaning nothing

Darling it started out meaning nothing  
Darling it started out meaning nothing
