

In The Moment

Gengahr

Driving you home
I could get along with it
The 4AM calm
Better if we turn back now
Have I got you sold?
Tell me that we don't exist
A green light will come
Anytime you want now

All night
Your friends will say it's alright
Can we wait, I'll see you all the time
No way I'm staying all night
No way to stay young

Taken your coat
Never been one to swim
As bright eyes return
I'm staring at the walls again
Would I like to go?
Better than the war within
Familiar roles
Got to mean something

All right
We're meant to set a compromise
Clear to see me calling out
Too late to say, you can't decide
For me to say

Freedom commits
Highlights the mist
And I just want to live
In the moment

Freedom commits
Highlights the mist
And I just want to live
In the moment

Felt so real
Can't quite believe it all
Focus on the lighter side heading on
Felt so good
There might still be love
And I can see it now like it never was

Freedom commits
Highlights the mist
And I just want to live
In the moment

You never own it

Freedom commits
Highlights the mist
And I just want to live

I just want to live
In the moment

You never own it
You never own it

I just want to live

All night
Your friends will say it's alright
Can we wait, I'll see you all the time
No way I'm staying all night
No way to stay young
