Call me up
Wait until it's dark enough
We should never love so much
Afraid a better time won't come

And then you tell me
You see it's not so hard to run
And there's all the things we've done
I need to know what I've become
'Cause I can't chase these thoughts now

Cut from a shadow
The darkest ground
Seeing is believing
But I won't be found

Cut from a shadow
The darkest ground
I know you don't believe me
But I won't be found

For your part
Never been the silent type
Even when my heart grows tired
And I can feel you deep inside

Call unto me
I will be where you need me to
I know do what you want to do
For all the marks that I can bear
The truth it's a likeness we share

Cut from a shadow
The darkest ground
Seeing is believing
But I won't be found

Cut from a shadow
The darkest ground
I know you don't believe me
But I won't be found-won't be found, oh no

Cut from a shadow
The darkest ground
I know you don't believe me
But I won't be found-won't be found, oh no
