

Never A Low

Gengahr

I sought that terrible sound
Maybe you were right, it's always down
Fly away on kerosene
Never thought it could burn so clean
All the way now barely gone
On the up just carry on
Hush now, don't you fall inside
Easy now, break it out

You got that weight in your eyes
I miss the wind in the wires
Lost in the wake of it all
Mind off the wall so

Sentimental in an endless spring
Deviate heavy, now you're catching me
Sound talking but you can't let on
Baby knows better when the acid's gone

Out, out like never again
Out, out like never again

Maybe, it's the right time, oh
I don't really gotta go
Given up enough times, so
Outta control, outta control
This'll be the last time, oh
I don't really gotta go
Giving up and that's fine, so
Out of control, out of control

All the blessings that you have
All the reasons that you go back
For a second you thought at last
All lonely boys
All the laughter ran out of gas
Fallen down but you know you can
For a second you thought at last
All lonely boys

You got that weight in your eyes
I miss the wind in the wires
Lost in the wake of it all
Mind off the wall so
You got that weight in your eyes
I miss the wind in the wires
Lost in the wake of it all
Mind off the wall so

Maybe, it's the right time, oh
I don't really gotta go
Given up enough times, so
Outta control, outta control
This'll be the last time, oh
I don't really gotta go
Giving up and that's fine, so
Out of control, out of control

(Out of control, out of control
Out of control, out of control)
