

# Red Sun Titans

Gengahr

Here's Goliath  
Starting fires  
A unicorn tired  
Can't save you now  
If there's no kindness  
Love in silence  
Hope enough  
For Saturn's lonely heart

If there's a chance I wouldn't last  
Indigo  
You got a place it never rains  
Here we come

Coming up on the bend  
Two steps from the edge  
Coming up on the bend  
Two steps over

Red sun titans  
Selling lightning  
From hotel fountains  
Down by the bay  
If they're so righteous  
Nothing like us...  
Loosen up  
Cause Saturn's rolling on

If there's a chance, I wouldn't last  
Indigo  
We gravitate to elevate  
Getting on

Coming up on the bend  
Two steps from the edge  
Coming up on the bend  
Two steps over

Never mind

If there's a chance I wouldn't last  
Indigo  
We gravitate to elevate  
Getting on  
If there's a chance I wouldn't last  
Indigo  
You got a place it never rains  
Here we come

Coming up on the bend  
Two steps from the edge  
Coming up on the bend  
Two steps over

Coming up on the bend  
Two steps from the edge  
Coming up on the bend

Two steps over
