

## Soaking In Formula

Gengahr

Soaking in formula  
Buried in all it's might  
Happy to sink where we land  
Soaking in formula  
Everything out of sight  
Deep in the heart of man

Sharp teeth, dog-tired  
Hard to figure where it lies  
Out dated but it all seems to get round  
Same place, street wise  
Light a candle on reprise  
Times are changing but it all needs to end now

What's a man?  
What's a man's energy?  
What's a man?  
What's a man meant to be?

Full steam, tongue tied  
Got a trigger happy mind  
Worth stating that it all seems to end here  
Pay cheque, dove tailed  
I was closer when we fell  
Tough talking but you won't like the answer

I don't see that much me  
I can say that honestly  
Out of reach the other hand  
I'll just pull you under  
I don't see that much me  
I can say that honestly  
Out of reach the other hand  
I just hope you understand

What's a man?  
What's a man's energy?  
What's a man?  
What's a man meant to be?  
What's a man?  
What's a man's energy?  
What's a man?  
What's a man meant to be?

Soaking in formula  
Buried in all it's might  
Happy to sink where we land  
Soaking in formula  
Everything out of sight  
Deep in the heart of man
