

You're No Fun

Gengahr

Mistaken, spoke out of turn, and it's gone
No-brainer, the feeling as laughter unfolds
God's creature, sweet as the blood on your robe
Bad timin', put it away but the minute you leave it alone

Gruesome minds
Workin' overtime
Lost in flight
Dreamin' of another sky
Closer now
The flaws in your design
A hopeless heart

Unguarded, fleeting as Autumn returns
Like father, given a purpose deserved
Off-track now, free from the maddenin' crowd
Low pressure, the end of the weekend, they're gonna eat you alive

Gruesome minds
Workin' overtime
Lost in flight
Dreamin' of another sky
Closer now
The flaws in your design
A hopeless heart

Outlides fading [?]
Alexander knows
Outlides fading [?]
Alexander, peace and love

True service, hardship's a carousel horse
Our guidelines, a distance when chaos emerged
Blue danger, glistening out of the halls
So fancy, can do what you want, but who's gonna pay for it all?

Gruesome minds
Workin' overtime
Lost in flight
Dreamin' out of time
Closer now
The flaws in your design
Born, this life
Could seem much sweeter now

You're no fun
Outlides fading [?]
[?] will come
Alexander knows
You're no fun
Outlides fading [?]
Alexander, peace and love
