

Take It!

Genitorturers

I've got the world of hurts
Begin it to your skin
Give it to over
Follow when the fury begins
Get on your hands and knees
Time to move with the the damned
Get off your ass and let me show you
How your problems began

Cause you take it, you take it
You wanted it all
You take it, you take it
Now you're going to fall - and say
Shoot me hard and give me the juice
I say you take it, you take it
Now I'm turning you loose
That's right

I take you too far
What you wanna say?
I take you too far
What you gonna do?

You lost a bargain with me
Hit the hole heavy
I want it passion and ..
I want it over easy
Dead end is coming with me
You can't refuse, yeah
Give your pleasure to me
Cause now I own you, baby

You take it, you're rotten to the core
Take it by my, yeah
You take it, you're such a perfect whore
You take it, baby till you come in me
Oh, you take it

You wanna move it
For me, baby up and down
I am gonna work it, work it
Till you working it out

Cause everyone needs a little more friction
They wanna know about these sturdy contradictions

How you take it, you take it
That I gonna know - that
You take it, you take it
And you'll never let go
Say, shoot me hard, baby give me the juice
You take it, you take it (I say ... never turn me loose)

You take it, you're rotten to the core
Take it by my yeah
You take it, you're such a perfect whore
You take it, baby till you come in me

Oh, you take it, yeah
You know want it (Take it)
You know you're gonna take it
You know you could never see ... once

You take it (You question too far)
You take it (I got your butt on my hands)
You take it (...)
You take it (Get ready)
You(to) take it, you take it, take it, take it
