

B4NGER

Gentle Bones

Where my friends gone
I'm sayin' hi to people that abused my association
Shit I can't remember your name now
Please don't hate me, I'm stayin' home for meals with my mama
Boy I'm good in my ditch
Ask me out and I'll insist
Plead ya back up
If my birthday a party and no one turn up
I'ma turn up

I'd go twist it and quit I'm back on my shit
I shouldn't be lonely
Buy a bitch flowers and take her breath away
Then I just make up a banger

(Banger! Banger!)

I was nice it were nice you were never
Take a shit on my conscience
Take a shit on it
I don't wanna lie I was into it
Letting your dream go disappear
While you twirl on it
Get caught up tearing out the page
When high school never ends
But now, shit

Where are my friends?
Like nobody cares, nobody needs me
I'm so lonely
No you don't know
Shut the fuck up
Like I'm an Asian Cudi I woke up like this
But all I knew is
(Go back then)

I'd go twist it and quit I'm back on my shit
I shouldn't be lonely (Lonely)
Take a nice shower and give love to myself
Then I just sleep till December

(Banger! Banger!)

To the windows to the walls
Bang her with a pillow and her float
Bangin' till she don't want but want some more
Bang that banger all night long
